PROFESSIONAL SUMMARY

Entry-level Cyber Security Analyst with knowledge in penetration testing, digital forensics, and network security. Certified in Google Cyber Security and Harvard CS50 Cyber Security programs. Skilled in Python, SIEM tools, Linux Bash, and ethical hacking methodologies. Passionate about securing systems, analyzing vulnerabilities, and participating in Capture The Flag (CTF) competitions. Seeking an opportunity to leverage my cybersecurity knowledge in a professional environment.

PROJECTS & EXPERIENCE

Cyber Security Lab

Set up a virtual lab for penetration testing using Kali Linux, Metasploit, and Wireshark. Conducted ethical hacking simulation, identifying vulnerabilities in test environments. Participated in SOC simulation training.

EDUCATION & CERTIFICATION

🎓 lycée provincial du Tuy

🎓 university of Koudougou

🏆 Harvard CS50 Cyber Security

🏆 Hacking and Cyber Security-Hacker X

🏆 Google Cyber Security certificate

🏆 Digital forensics Investigation-Alison

LANGUAGES

🇫🇷 French Fluent

🇺🇸 English Proficient

🇸🇩 Moré, Bambara-Dioula Conversational
